Sparkling Elegance.

A modern bedroom with a light-colored bed, a white nightstand with a vase of dried flowers, a window with beige curtains, and a white wardrobe with gold handles. The room is bright and airy, with a patterned rug on the floor.

With its angular forms, unique design that combines the aesthetics of different materials, and its modern design completed with delicate embroidery, Asia Bedroom adds a unique atmosphere to your bedroom. The daylight sconces used on its headboard highlight its elegant details.

The new form of
elegance.

Offering a unique aesthetic in every detail , Asia Bedroom offers perfect forms to your bedroom with its stylish embroidery details on the doors, legs and drawers, the balanced combination of gold and moonstone and the curved mirror design.

Perfect Balance...

Rich design details come together with the balanced integrity of materials with different identities such as mirror, wood, fabric and metal.

Functional Features

Base, wardrobe and other modules offer functional details that make life easier. Six-door cabinets are offered in two forms, mirrored and non-mirrored. In the mirrored version, bronze mirror is used on the middle doors. Handles and feet are painted MDF . Self-bracing hinges and rails are used on the doors and drawers. There are 3 aluminum hangers in the cabinet. The form of the dresser mirror is CNC machined. Daylight bronze wall lamp is used in base lighting.

Production Details

The product is made entirely of first quality melamine coated particle board, handles and legs are made of MDF. The bed base and headboard are completed by covering the particle board with styrofoam, sponge and fabric. There are 2 high-strength shock absorbers, 2 galvanized scissors and 2 safety locks on the bed base. Braked hinges are used on the wardrobe doors and braked rail system is used on the drawers. There are 3 hangers inside the wardrobe. The dresser mirror is shaped by CNC for visualization purposes.
