WRINKLES & VISUAL APPEARANCE

Due to a combination of the elasticity of the covering, the nature of the interior construction and the design for comfortability of the product, the model may exhibit differing levels of wrinkles.

The models need to be dressed on a regular basis to maintain their appearance and the wrinkles should not be considered as a manufacturing defect, but a natural characteristic of the product.

NOTES

- The model has quilted seats when ordered in leather, whilst in fabric there are no stitches yet resulting in a more contemporary look.
- Armless seat versions can also be used as a stand-alone element thanks to side panels that can be easily attached to the seat. The side panels have their own version and must be ordered separately. It is possible to mix and match stand-alone elements and panels in different coverings, categories and colors.
- Many upholstered small elements enrich the versatility of the models: ottomans in different dimensions, shapes and function, to be used together with the seats elements or as stand-alone elements.
- The versions 482/483 are made of one piece and all the headrests are fixed, included the headrest of the motion seat.
- Power mechanism with switch on the external side panel (power recliner and manual adjustable headrests)
- The armless relax seats have an upholstered switch flap on the side that can be easily hidden between the seats to activate the mechanism.
- Thanks to ZeroWall mechanism, seat and back cushions can be reclined at a great length without moving sofa away from the wall.

NOTES

- A battery pack can be ordered with its own version 830. For order entry please use cat.10 with cover code LIB. The battery pack has to be connected to the back of the chair by removing the power supply cable. It is strongly recommended to order one battery bank per motion seat in order to guarantee a long life.
- Tight Seat Cushion (the seat cushions of the models are fixed to the frame)
- Tight Back Cushion (the back cushions of the models are fixed to the frame)
- No Leather Side (the sectional pieces have the side covered with lining and not leather)
- Internal wooden frame
- Without Feet Assembled (the feet will be in a bag inside the package)
- Cardboard Wrap
- Feet height 4,5 cm
